Re: Dump Trailer Tip-Over Prevention

Dear BUCHHEIT TRUCKING SERVICE INC:

At Steel Dynamics, Safety is our #1 Core Value. Simply put, we believe that our employees should go home each day in the same physical condition that they came to work that morning.

We need your help!! Over the last year, we have seen an alarming number of dump trailer tip-overs within our facilities, averaging more than 1 tip-over incident per month. Although, fortunately these recent tip-over incidents have all resulted in near misses, property damage or minor injuries, we understand and appreciate that many, if not all of these incidents could have resulted in serious injury or fatality.

This prompted us to develop a product aimed at preventing ALL dump trailer tip-overs. As a carrier that delivers products into our facilities, we've identified you as a stakeholder in our initiative.

Enclosed, you will find a Dump Trailer Tip-Over Prevention Best Practice document. We strongly encourage you to review this document in its entirety, share it with your employees and implement any/all elements of this program that you find necessary.

SDI IS OFFERING THESE SUGGESTED BEST PRACTICE TIPS IN THE HOPE THAT BY FOCUSING ON SAFETY CONCERNS AND FOLLOWING SUCH BEST PRACTICES, INCIDENTS OF DUMP TRAILER TIP-OVERS WILL BE REDUCED OR ELIMINATED. SDI DOES NOT, HOWEVER, WARRANT THAT SUCH BEST PRACTICES WILL, IN FACT, ACHIEVE SUCH RESULTS, OR WILL PREVENT A DUMP TRAILER TIP-OVER. THESE SUGGESTIONS ARE NOT ALL INCLUSIVE AND IT IS WISE TO HAVE MULTIPLE PEOPLE EXAMINE A LOAD OF MATERIAL BEFORE DUMPING TO CONSIDER ALL SAFETY CONCERNS PRESENT WITH EACH LOAD. THE CHOICE OF WHETHER TO FOLLOW SUCH BEST PRACTICES SHALL BE ENTIRELY THAT OF THE OWNER/OPERATOR OF THE DUMP TRAILER AND SDI DISCLAIMS ANY AND ALL RESPONSIBILITY OR LIABILITY FOR PERSONAL INJURY OR PROPERTY DAMAGE THAT MAY OCCUR AS THE RESULT OF A DUMP TRAILER TIP-OVER.

Our goal is to prevent ALL dump trailer tip-overs and we're asking for your help in this effort.

We appreciate your attention to this very important safety issue. If you have any questions or concerns, please contact your local division or email TransportationCouncil@omnisource.com.

Sincerely,

OmniSource Transport, LLC
Steel Dynamics
